Notice to Candidates.

If you desire the votes of the people of Earlington make your announcement in THE BEE. We will make your announcement and carry it until the coming election for the moderate sum of \$5.00.

Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in case of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery.

For sale by St. Bernard Drug Store, Earlington; B. T. Robinson, Mortons Gap; Jno. X. Taylor, Earlington.

Notwithstanding the repeated notices in THE BEE and the many signs around the lake in regard to shooting, it is an almost daily occurrence that some one is shooting at mud hens or ducks, thereby endangering the lives of fishing parties on the banks of the lake or in boats. On last Friday an old gentleman, who was fishing from the platform on the dam, came near being struck twice by rifle balls from small boys shooting from the opposite side of the lake, and was finally forced to leave the lake. This lake is within the corporation and shooting on it is punishable by fine and if the identity of those doing the shooting can be discovered they will be punished to the full extent of the law.

LIVER TROUBLES

"I find Theford's Black-Draught a good medicine for liver disease. It cured my son after he had spent \$100 with doctors. It is all the medicine I take."—MRS. CAROLINE MARTIN, Parkersburg, W. Va.

If your liver does not act regularly go to your druggist and secure a package of Theford's Black-Draught and take a dose tonight. This great family medicine cleanses the constipated bowels, stirs up the torpid liver and causes a healthy secretion of bile.

Theford's Black-Draught will cleanse the bowels of impurities and strengthen the kidneys. A torpid liver invites colds, biliousness, chills and fever and all manner of sickness and contagion. Weak kidneys result in Bright's disease which claims as many victims as consumption. A 25-cent package of Theford's Black-Draught should always be kept in the house.

"I used Theford's Black-Draught for liver and kidney complaints and found nothing to excel it."—WILLIAM COFFMAN, Marblehead, Ill.

Ice Cream Supper.

The teacher and pupils of Stanley's school house will give an ice cream social on the evening of Sept. 17th. The proceeds will assist financially towards starting a public school library for the benefit of the pupils of the said school. This is a worthy cause and should receive the countenance of all right minded people.

Good Spirits.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass State could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

The Law

Requiring all persons who continue to embalm to have a State license went into effect September 1st and it is one of the most important ones to the public, from a sanitary point of view, than any passed recently. In granting this license, the party applying for same had to stand an examination on disinfecting as well as embalming. Embalming is very important, if for no other reason than a sanitary one, as it is the only sure way of disinfecting a corpse, and where this is done there is no danger of the spread of a contagious or infectious disease, where a licensed embalmer and sanitarian has charge of the case.

Under the law it is impossible to ship a corpse where death was caused by a contagious or infectious disease unless prepared for shipment by a licensed embalmer. A number of people are prejudiced against embalming through a mistaken idea of how this is done. Where we have charge of the case we make only one or two incisions in a thorough case of embalming, and never ask anyone to leave the room as there is nothing objectionable to the work. We are qualified to take charge of all cases of contagious or infectious cases and give the necessary sanitary advice to prevent the spread of the disease.

Our facilities for conducting a funeral are as complete as it is possible for us to have them. We give this department more study than any other department, and answer all calls in any part of the county day or night.
